THE SUCCESS STORY

Hi, I am Gemini Dhar

THE GIRL WHO WANTS TO DO WONDERFUL THINGS IN LIFE

I want to share a story with you. There was a little girl who always aspired to do something wonderful, something extraordinary in life.

When anyone asked her, "I want to be a Mother".

One October morning, life took a drastic turn.

Her biggest inspiration the most amazing person she ever knew, her hero, her dad passed way.

That girl was me and I was 16 years old at that time. Like every father, my dad protected my family and now he was gone.

From a demanding daughter I had turned into the breadwinner for my family. I had no clue on how I would survive in the world. But I knew one thing that I had excel in whatever I do.

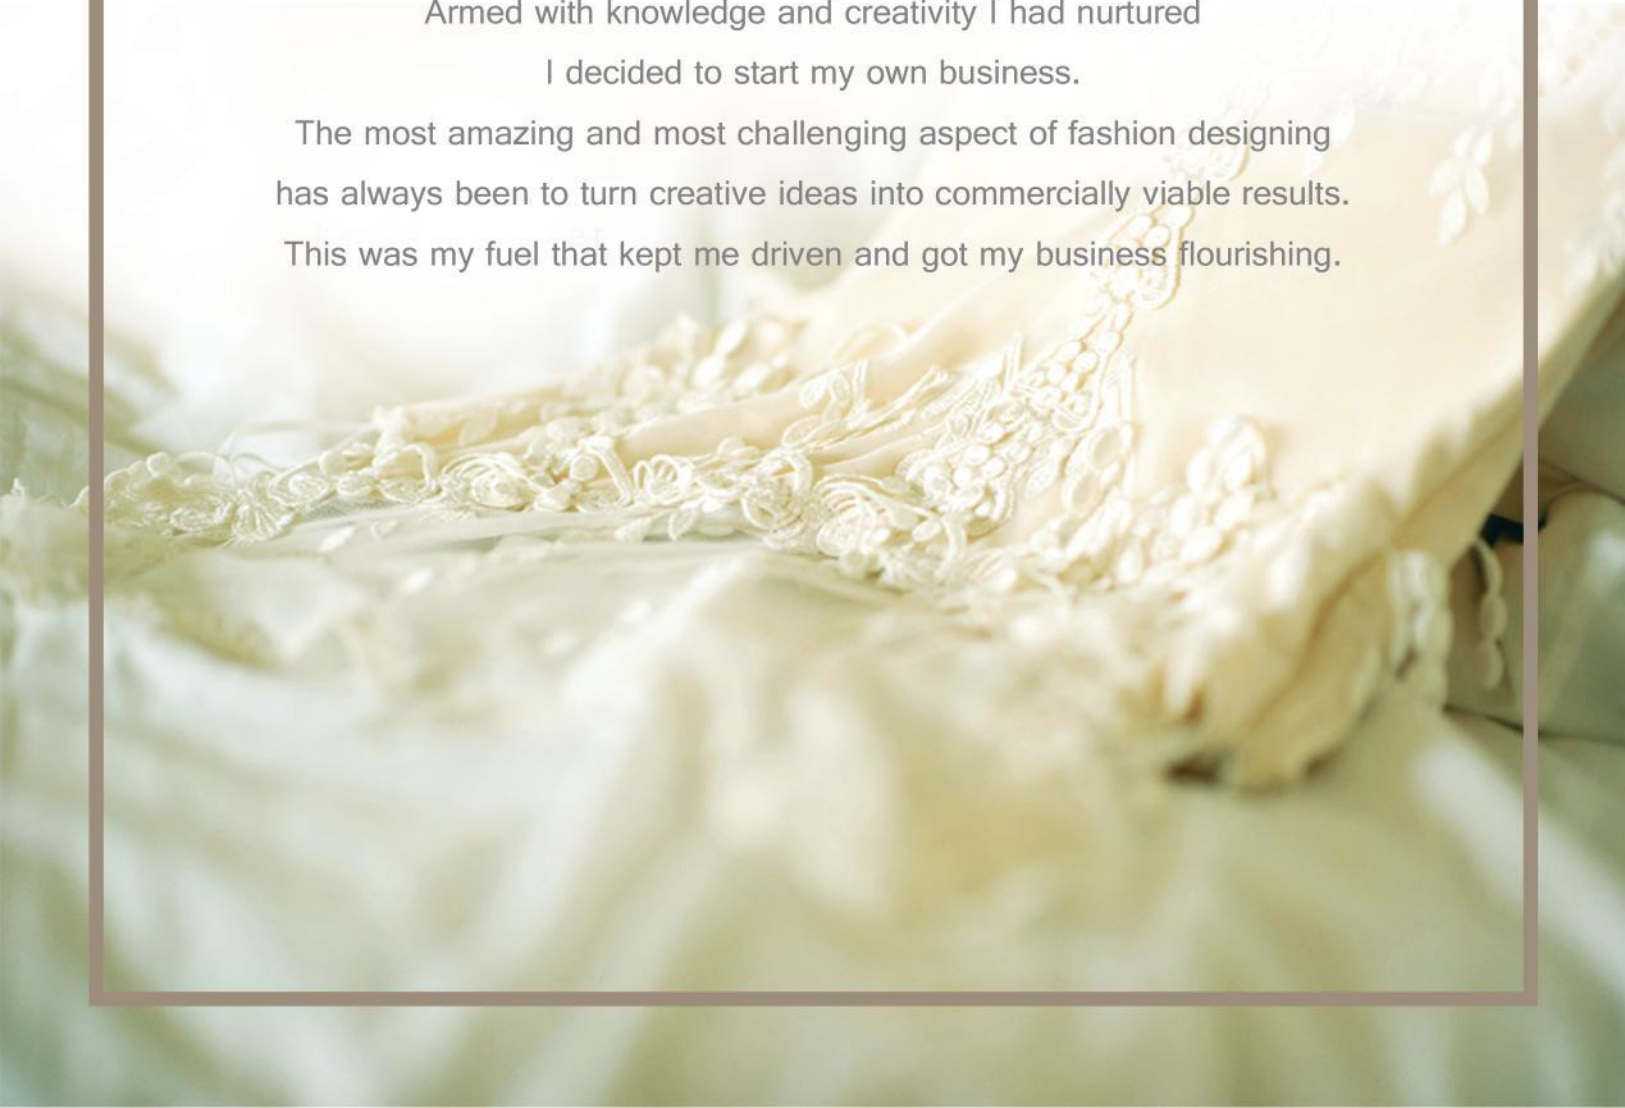

FASHION DESIGNING CAME NATURALLY TO ME!

I trained under famous celebrity designers and this helped me earn fame and recognition.

Armed with knowledge and creativity I had nurtured

I decided to start my own business.

The most amazing and most challenging aspect of fashion designing has always been to turn creative ideas into commercially viable results. This was my fuel that kept me driven and got my business flourishing.

KEEP THE ADVENTURE ALIVE!

THE 'MY PURPOSE IN LIFE' MOMENT

After 22 years of working. One day I had a moment, an epiphany of sorts. The moments where you truly understand what your purpose in life is. And I realized that mine was to be a woman of health and power, to use that to help and to empower other woman. When I say power, it is of character that is built one day at a time and when I say health, I mean mental and physical health.

It has been my firm belief that we are all created equal regardless of gender, race or religion. I do not believe in being independent but being interdependent because we live in a society where we all rely on each other.

I've made differences in lives of people I have shared my experiences with, I hold the helm of my 'Ship of life' and after having survived storms and troubled water I can say I am confident that I am in control of it. I've learned from people from all walks of life. The little girl in me constantly wants to keep doing wonderful things in life.
